(HEMEROCALLIS)

1956

## GROVELAND GARDENS

754 NORTH SHAFFER STREET  
ORANGE, CALIFORNIA

# *Announcement*

**It is with deep regret that we announce our retirement from the business of growing and distributing Iris, due to continued ill health.**

**We hope to be able to dispose of our large stocks of good Iris and have listed all we grow with the exception of small stocks of some of the later introductions. We will be glad to quote them on request.**

**Most of the varieties which are among the finest in commerce, are listed in two separate groups following the alphabetical Iris listing. Many of these will sell out quickly, so please name substitutes.**

**At this time we wish to thank our many good friends and customers who have given us generous orders and who have written such kind letters expressing appreciation of the excellent plants and business-like treatment.**

**If circumstances permit, we hope to go on growing Daylilies for the time being.**

**Gratefully yours,**

**HARRY J. PADDEN**

We ship only large healthy one year plants, free from disease and State inspected. We give extras of known quality. If anything proves unsatisfactory please advise us and we will do our utmost to make things right.

Our garden is located two miles north of central Orange on Taft Avenue, between Batavia and Glassell Streets. Our mailing address remains the same, 754 North Shaffer Street, Orange, California.

## **Terms Used in Describing Iris in Catalog:**

Amoena—White or standards suffused with white, with colored falls.

Plicata—Stitched or dotted margin color on pale background.

Variegata—Yellow or blended yellow standards, with deeper falls.

Bicolor—Light or medium standards and deeper contrasting falls.

Self—An iris of the same color throughout.

Texture—The finish of an iris such as satiny, velvety, etc.

Substance—The thickness or firmness of petals.

## *Terms of Sale*

Cash in form of money order, check, or draft. We will prepay orders for \$5.00 or more. Please add 50c for orders for less to cover cost of packing and shipping.

Shipping starts July 1st. Orders will be shipped in turn as received. No substitutions without permission, but we would appreciate it, if you would list a few, just in case some varieties are sold out.

# Daylilies

*Daylilies supply more beauty with less effort than any other plant we know. They flourish in almost any soil, and are suitable for any part of the garden. We have added many good new ones to our list this year. In describing the flower, the three large divisions are called petals, and the three smaller divisions are called sepals. De. denotes deciduous, and Ev. evergreen. We ship daylilies spring and fall, but the plants must be dug in clumps, so please do not ask for special shipping dates. Starred varieties fall delivery only.*

A DISCOUNT OF 15% WILL BE ALLOWED ON ORDERS OF \$10 TO \$25.  
20% DISCOUNT ON ORDERS OF \$25 OR MORE. THESE DISCOUNTS DO NOT APPLY TO BARGAIN LISTS.
